

Бібліотека Одеської державної академії будівництва та архітектури

# Робота з платформою **Research4life**

Підготувала зав. від. ІТІКЗ – Петрук Анна Сергіївна  
Директор бібліотеки – Мовчан Світлана Петрівна

2022р.

Адреса сайту - <https://portal.research4life.org>

Видавництва що забезпечують доступ до рецензованої науково-технічної літератури:

- Elsevier,
- Springer,
- Wiley,
- Sage,
- Taylor & Francis,
- BioOne,
- Oxford University Press,
- Nature Publishing та ін.

## Цілі платформ Research4life:

1. Залучення більшої кількості вчених із країн що розвиваються у міжнародне наукове співтовариство.
2. Швидкі терміни публікацій.
3. Підвищення якості журналів із країн, що розвиваються.

# Платформи Research4life:

## Сумлінне використання Research4life:

- завантажувати або роздруковувати до 15% випуску журналу чи книги;
- використовувати матеріали для навчальних цілей;
- слід завжди вказувати першоджерело.

## Заборонено:

- повідомляти usernames and passwords будь-кому поза академією;
- розповсюджувати документи індивідуальним користувачам або організаціям поза академією;
- отримувати оплату за надання матеріалів;
- використовувати програми Research4life, перебуваючи в іншій країні;
- завантажувати або відправляти матеріали для широкого доступу на сайти або будь-де ще;
- розміщувати імена користувачів та паролі на загальнодоступних веб-сайтах або блогах.

# Якщо виникли проблеми з доступом

# Головна сторінка сайту R4L

## Welcome to Research4Life

Research4Life provides institutions in low and middle-income countries with online access to academic and professional peer-reviewed content. We aim to improve teaching, research and policymaking in health, agriculture, the environment and other life, physical and social sciences.

To access the content portal, [log in here](#) or by clicking the icon on the top right.

## Collections

Research4Life content is grouped into the following collections:

- **Hinari** is one of the world's largest collections of **biomedical and health** literature.
- **AGORA** is an outstanding digital library collection in the fields of **food and agriculture**.
- **ARDI** gives access to **scientific and technical** information.
- **GOALI** focuses on **law and social sciences**, including politics, economics, philosophy, history and more.
- **QARE** collects information resources on **environment**, including ecology, geography, energy and more.

## Resources for International Women's Day - 8 March

Our recommendations for 2022 Theme: Gender equality  
to achieve a sustainable tomorrow

# Головна сторінка

## Добро пожаловать на портал Research4Life

Портал Research4Life предоставляет учреждениям в странах с низким и средним уровнем дохода онлайн-доступ к научным и профессиональным рецензируемым материалам. Наша цель - способствовать повышению уровня преподавания, исследований и принятия решений в области здравоохранения, сельского хозяйства, окружающей среды и других естественных и социальных наук.

### Коллекции

Материалы Research4Life сгруппированы в следующие коллекции:

- **Hinari** одна из крупнейших в мире коллекций литературы по биомедицине и здравоохранению.
- **AGORA** уникальная цифровая коллекция материалов в области продовольствия и сельского хозяйства.
- **Портал ARDI** предлагает доступ к научно-технической информации.

# Додамо деякі фільтри і результат 3млн. публікацій

The image displays a screenshot of the Research4Life search interface. The top navigation bar includes the Research4Life logo, a search bar with 'Options' and 'New Search' buttons, and a language selector set to 'English'. The main search results area shows 3,047,484 results, sorted by relevance. The first result is a journal article titled 'TRMM/GPM Goddard 潜熱推定アルゴリズム' (TRMM/GPM Goddard latent heat estimation algorithm) by 井口 孝道 (Keicho Iguchi), published in the Journal of the Meteorological Society of Japan, 2022, Volume 100, Issue 2. The second result is 'Additmer® 是 Merkel 細胞癌の潜在治療方法' (Additmer® is a potential treatment for Merkel cell carcinoma), published in the British Journal of Dermatology (1951), 02/2022, Volume 188, Issue 2. The third result is 'Trajectories of export strategies in Russian transport engineering enterprises' by Stepanov Evgenij A; Pietrav Dmitry A, published in the St. Petersburg State Polytechnical University Journal. Economics, 01/2022, Volume 15, Issue 1. The fourth result is 'Toolkit of material resources management in lean production at engineering enterprises' by Smirnov Artem A; Kobzav Vladimir V, published in the St. Petersburg State Polytechnical University Journal. Economics, 01/2021, Volume 14, Issue 5.

On the left side, there are two panels for refining the search. The top panel, titled 'Refine your search', includes filters for 'Full Text Online' (checked), 'Scholarly & Peer-Reviewed', and 'Add results beyond your library's collection'. Below it is the 'Content Type' filter, which shows 'Journal Article' selected with 3M results. The 'Publication Date' filter shows '1 Year' selected. The 'Discipline' filter shows 'engineering' selected with 3 results. A second, smaller version of this filter panel is overlaid on the search results.

At the top of the search results area, there is a 'Selected' filter bar with a 'Clear all' button. It contains filters for 'Full Text Online', 'Journal Article', '1 year', and 'English'. The 'Selected' label is circled in red in the top-left screenshot.

# Як відкрити документи для перегляду. Pdf

The image shows a search results page on the left and a PDF viewer window on the right. The search page displays three results, with the third result, 'Prospects for the use of IT for the selection and assessment of suppliers of materials and components', having a red circle around its 'PDF' icon. A red arrow points from this icon to the PDF viewer window. The PDF viewer shows the title 'ПЕРСПЕКТИВЫ ПРИМЕНЕНИЯ ИТ ДЛЯ ВЫБОРА И ОЦЕНКИ ПОСТАВЩИКОВ МАТЕРИАЛОВ И КОМПЛЕКТУЮЩИХ ИЗДЕЛИЙ' and the author 'Ю.Н. ГУЛЕВИЧ<sup>1</sup>, Г.М. НАЛИВАЙКО<sup>2</sup>'. The PDF content discusses the application of IT in supplier selection and assessment.

**Аннотация.** Целью данной работы является применение информационных технологий в помощь управленческим решениям. Суть проблемы состоит в выборе поставщиков материалов и комплектующих изделий для предприятий машиностроения. Первоначально, при осуществлении закупок, поставщики должны оцениваться по ряду критериев. Возможность рейтинговой оценки обусловлена тем, что на современном рынке существует большое количество поставщиков одинаковых материальных ресурсов. Закупка осуществляется у наиболее конкурентоспособных поставщиков, постоянно подтверждающих свой статус надежного бизнес-партнера. На предприятии была разработана методика оценки поставщиков на основе системы управления базами данных Microsoft Office Access. MS Access работает в операционной среде Windows и позволяет организовать локальную базу данных (БД). Локальная БД Access имеет собственные таблицы, формы, отчеты и другие объекты БД организации с относительно небольшим объемом данных. С помощью методики базовой оценки поставщики ранжируются по их уровню надежности. Взаимоотношения прекращаются с тем поставщиком, который не соответствует требуемому уровню надежности. Таким образом, управленческие решения по логистике поставок получают инструмент повышения эффективности и результативности предприятия, достижения им рыночной устойчивости.

[ABOUT THE JOURNAL](#)

### Abstract

[READ ONLINE](#)

Continuous improvement of material resources management tools based on the principles of lean production in production management allows managers of enterprise to increase the economic efficiency of operating activities and gain competitive advantages. Sheet metal cutting is the main technological process with sheet metal taking a significant share of production material costs at many engineering enterprises. Therefore, the task of increasing of the material utilization rate is relevant in terms of increasing the economic efficiency of the enterprise and rational use of natural resources. Introduction of rational cutting algorithms is the main direction of solving this task. However, in order to eliminate arising losses when cutting sheet metal, it is necessary to pay attention to the questions of reasonable sorting of material resources after cutting into groups of business and non-business material resources and the organization of their management accounting. The purpose of the research is to develop tools of material resources management in lean production for sheet metal cutting at engineering enterprises with single or serial types of

# 20 галузей за спеціальністю > 24млн. документів

The screenshot displays the Hinar search interface. At the top, the Hinar logo is on the left, and navigation links for 'Options', 'New Search', and 'English' are on the right. A search bar is positioned above the results. On the left side, a sidebar lists 20 disciplines, each with a 'Selected' checkbox and a 'Clear all' button. The disciplines are: engineering, chemistry, physics, sciences, psychology, languages & literatures, economics, education, mathematics, business, religion, ecology, social sciences, computer science, geology, philosophy, statistics, visual arts, library & information science, and architecture. The main search results area shows 24,375,533 results, sorted by relevance. Three results are visible: 1. 'Information' (Journal of systems science and systems engineering, 2020, Volume 29, Issue 6), 2. 'Preface' (Journal of computer science and technology, 2020, Volume 35, Issue 4), and 3. 'Copyright' (Rare metals, 2011, Volume 30, Issue 4). Each result includes a 'Full Text Online' button and a 'Preview' option.

### Добро пожаловать на портал AGORA

Программа AGORA, созданная Продовольственной и сельскохозяйственной организацией ООН (ФАО) совместно с крупнейшими издательствами, позволяет развивающимся странам получить доступ к богатейшей цифровой библиотечной коллекции в области продовольствия, сельского хозяйства, экологии и смежных социальных наук. В коллекции платформы AGORA представлено порядка 15500 выпусков крупнейших журналов и 48000 книг, опубликованных в более чем 115 странах. Платформа AGORA создана для повышения уровня научных знаний тысяч студентов, преподавателей и исследователей в области сельского хозяйства и естественных наук из развивающихся стран. AGORA - это одна из пяти программ, входящих в Research4Life: AGORA, HINARI, OARE, ARDI и GOALI.
